

“Rechargeable Refrigerator Purifier”

- Reduces Food Spoilage
- Extends Food Life
- Neutralizes Odors
- Eliminates ethylene gas
- Promotes a Clean Fridge Environment
- Stretches Food Budget
- Built-in Rechargeable Batteries
- Compact & Quiet

Congratulations on your purchase of the O3 Pure Rechargeable Refrigerator Purifier.

Silent, intuitive and effective in making your refrigerator smell incredibly fresh. Within a short period of time you will notice how your fruits and vegetables are not spoiling before you can eat them. Custom designed for North American fridge capacity, it is the most environmentally friendly, efficient, fridge deodorizer on the market.

To protect your purchase be sure to read this manual.

How it Works

The O3 Pure Rechargeable Refrigerator Purifier utilizes ozone technology combined with a built in CPU which maintains the ozone concentration plus controls the working and rest cycles. The O3 PURE Purifier is environmentally friendly and utilizes a rechargeable battery system eliminating replacement batteries.

Ozone is Natural

Ozone occurs naturally in the environment during thunder and lightning storms (high voltage passing through the air) making the air smell fresh.

“Safety Assurance for use with food”

FDA-Ozone Regulatory Status

FDA/CFSAN- June 26, 2001

“The FDA amends the food additive regulations to provide for the safe use of ozone in gaseous and aqueous phase as an anti-microbial agent on food, including meat and poultry.”

Final Rule published in Federal Register (21 CFR Part 173, Docket No. OOF-1482)

Directions for Use

- 1) Remove O3 Pure Rechargeable Refrigerator Purifier from box and packaging.
- 2) Turn the unit upside down and plug the battery charger into the base of the unit. Plug charger into a 110V wall outlet. The indicator light on charger will be red when charging and turn green when fully charged. (4-5 hours)
- 3) When batteries are fully charged disconnect charger from the outlet and from the O3 PURE Rechargeable Refrigerator Purifier.
- 4) Press the On/Off button located on the bottom of the unit. The O3 Pure Fridge Deodorizer indicator light will flash every second during cycling modes and every 10

seconds during resting modes. The O3 PURE Rechargeable Refrigerator Purifier will cycle continuously for 30 minutes and then automatically cycle for 5 minutes every 2 hours.

- 5) The indicator light turns a solid red when the batteries need to be re-charged. (approximately 30 - 45 days)

Specifications

Model: *O3-RRP-01 Rechargeable Purifier*

Voltage: DC 8.4

Power: 1.1 W Ozone: 24mg/hr.

Weight: 373g

Charger 8.4v

Features
